DR. S. O. RICHARDSON'S CONCENTRATED Sherry-Wine Bitters.
THE Proprietor of this medicine offers to the public the result of a long and [illegible] investigation of the laws which govern the human system.
It cannot be doubted by those who have observed carefully, with the singular virtues of these Bitters, that they possess a power [illegible] over all others now in use for the diseases which they propose to cure.
It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youth, adult and decline.
The extensive sympathies [illegible] between these and every other part of the living body, lay the foundation of Nervous Diseases [illegible] Loss of Appetite, Languor, Drowsiness, Wandering Pains, Headache, Lowness of Spirit, &c.
And these in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fever, Inflammatory Humors, Coughs, and a host of diseases which embitter life and prove all sources of enjoyment.
The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease [illegible]

John S Sayward,—Editor.

WEDNESDAY, NOV. 24, 1847.

Hon. Horace Mann's Lecture on Education.

The problem of Education, also, is immensely complicated, by having to calculate the various effects of time on different minds For remote results are far more important than immediate ones It is a far, far higher duty to train and educate a child properly to fill the important duty of after life, than it is to produce pleasing and precocious effects in childhood

Shall the painter visit the lands of the fine Arts—Italy and Germany—and study for years to imitate the works of the old masters, before he returns to take a portrait? Shall the plan be pursued by those who have the task of Education in their hands, and in the meantime submit the children entirely to ignorance and prejudice? Suppose, my friends, when you and I had taken up our hands to the tremendous task, we had needed to produce one of those statues of perfection right off hand I think the result would have been that we would have produced a statue that would have been something like that of Priapus that was set up in the garden to scare away crows

Again, to treat all minds all cases as bad as to treat all diseases alike It is true that a good cause may but on the right remedy! but the chances are as infinite to nothing against it It nature has established certain fixed relations between means and ends, then it follows that if we use the right means we shall accomplish the end And if the teacher does not succeed it is a proof that he has not employed the proper means, that he has not studied the effect of those on the mind of the child Every science forms one of the most important points of a teacher's education, and one thing he should learn above others, to watch the rapid growth of the mind in early youth It is a universal law of nature, that all growth is most rapid in early life If the oak was to grow as fast in the remainder of its life as it does for the first seven years the loftiest clouds would scarce be lofty enough for a canopy If the man was to continue to grow in to 70 years as fast as he does the first 17 years of his life, like Polyphemus he would use the trunks of the tallest trees for walking sticks, and devour whole flocks at a meal

* * * * *

Look at the exercises in our public schools—See what attention is paid in reading, in the tone, the accent, the modulation, in grammar the rule and exception and reform must all be elaborately attended to, in geography the population and latitude and longitude of cities, the heights of mountains and lengths of rivers, are all thought of the highest importance in arithmetic, the same occurs in regard to quotient dividend, fractions and infinitesimal Look at the ostentation and perseverance in the whole machinery of marking, place taking prizes and so forth 'Look at this page and turn to the blank leaf of moral appliances and negligments

Such has been the neglect in this matter, that I marvel there is any semblance of the moral nature left among us I wonder that morality truth, love and honor have not fled from earth, and left us heartless, unethical and idolatrous, I wonder that the spirit of morality has not fled like Asters to the stars spelled from earth by the folly and wickedness of man But it is fortunate that it is otherwise that the virtue of the fathers and the piety of the mothers can expect to fall from the breast of their child as when the autumnal leaves of the Western prairies rush over them, leaving an ocean in waste of desolation behind—yet watered by the refreshing rains of the following spring, beauty, loveliness and fragrance may burst forth anew and from the lots of the diseased pursuits spring up new hopes and new susceptibilities of virtue and religion

Another duty must be attended to in the education of the child The power or faculty that is to be increased only must be in active action If you address a child in a language not understood it will be as useless as if a botanist was to address a number of plants and flowers and direct them how to grow Hence it is that knowledge called morality nothing that is utterly unworthy of the name There can be no moral effect unless all the intelligent activity of the moral nature be at once addressed to it The teacher cannot command the attention of the child the child grows worse or else he grows smaller The best means to be practised in all that the mother should early begin this work The hand of maternal love never more dry She waters the plant daily and though the leaves seem dry and withered yet there may be life in the root Time and time the worst child with by a mother, and despair buried in the distance She will put her lovely babe by the bed of her sick child, let the dark hair of the child's tongue, the rattle in the throat not prevent her more terrible than all this can make earth or sky She will give her whole fortune for a single remedy but of old says that child life And yet all true is only the breath in the body How much more then, should she do it to preserve the death of the soul There is no death bed on earth so horrible as the extinguishment of virtue in the human soul Death of the body is indeed terrible to contemplate but the pangs of remorse who can bear

Bearing mind, that the whole susceptibility remains, no child is utterly incapable of bliss The innovation and redemption of humanity depend on our knowledge and means for cultivating and forming the mind as it passes through the successive stages of childhood

That part of our nature created in the image of God, should be rendered bold, firm, nerved and awful in the exercise of virtue That which is base should tremble before the power and bow to the will of the law given In this way we may render our condition more noble, learned and manly, and all alike be beautiful and true instead of being the sleezy, mangy and generally diseased set that too many now are

We shall then have an intellect like nature's well, transparent as air A benevolence that will melt all the good contained in the human race into one mass and neither hunger nor want nor vice nor misery shall be found in our midst A judgement so bright and clear that naught can dim its vision—every truth shall be known, and so far from again being blended with error, they shall be separated as the poles of the universe Then the soul shall cultivate an acquaintance with our heavenly Father, in all things and with unutterable feelings of unalloyed delight, go thrilling from the joys of benevolence to the approving judgement seat of conscience to pour out its raptures before the throne of God

PENOBSCOT COUNTY TEACHERS' INSTITUTE.

SEVENTH DAY

Monday, Nov 22, 1847

AFTERNOON SESSION

Professor W T Hopkins, the musical tuner, in the spirit of *true time*, made welcome and musical the opening of the session

Mr Woodson made some remarks upon the propriety, susceptibility and importance of abbreviating, and facilitating arithmetical operations He exhibited his method of addition by written and mental examples inviting the members of the Institute to perform the questions they were announced Many strove hard to preclude the result as soon as their leader, but found truly that they had not been instructed, the mental magnet now seemed tending to its superior attraction correctness of thought with the rapidity of lightning—an abbreviated method of performing Decimal Fractions and Duodecimals was presented and explained The incorrectness of the common rule for obtaining the common multiple of numbers was explained in so clear a manner that it could not fail to be understood a beautiful, brief and correct method was exhibited This was decidedly the *nicest* touch of the mathematical that the Institute have enjoyed

Recess 10 minutes

The questions from the 3d were then read by Mr Worcester and time given to such as were not intended for debate

The question, "How far does the authority of the teacher extend over the scholar while out of school?" was then called up for debate

Mr Thurston said that this was a point upon which many vague and infinite and contradictory notions obtained both among teachers and parents Without taking time to repeat the various and contradictory opinions, he would state directly to the true position which would be sustained by our courts of justice and by public opinion The teacher's relation to the scholar is, *in loco parentis* That is, the teacher has a jurisdiction over the scholar whilst the scholar is under his care—similar to that which the parent has over his child at home—But if you turn to the Statute Book to see what that jurisdiction is, you will not find a single sylable touching the subject

The Statute book does not say whether the parent may or may not correct his child The right is derived from what is called common law But if the parent abuses this authority he is amenable to the civil law Whilst the parent would be sustained in administering wholesome and proper correction still the law of the land would not allow him to inflict cruel or brutal blows Corporal punishment is allowed to be inflicted by the teacher, as he stands in the place of the parent The teacher has an undoubted right to administer all necessary and wholesome chastisement, if he does it in a proper manner In Counties of Justices, who regulate schools have been arraigned for whipping scholars, the points of enquiry are—the nature of the offence—the kind of punishment and the mode of administering it If on enquiry it is found that the punishment was adapted to the crime, and inflicted in a proper manner, the Court acquits the teacher

The jurisdiction of the teacher over the scholar out of school hours, has been the source of much doubt and perplexity But the rule we have given will apply equally well whether the scholar is in school or out—with this modification The teacher's authority extends to the scholar out of school, no further than any action or conduct, which directly affects the interest of the school or the happiness and improvement of its members while such acts are committed at a time or place, ingoing to or from school—But the misconduct of the scholar, which does not relate directly to the school or its members comes under the legal jurisdiction of the parent and not of the teacher The teacher's moral influence, however, kindly given by advice and admonition should reach the scholar in school and out day and night, we day and sabbath

The question, "How can a teacher best secure the attention of his scholars" was then taken up

Mr Baker of Dexter, said the teacher must first govern himself before he could govern others which he is not perfect master of If he finds his scholars inattentive let him reflect a moment, and he will generally find the confusion to have arisen from the dissipation of his own mind Assimilation of mind is as sure as the immutable laws of gravitation

Mr Brown, of Hampden, said the best way to secure attention, is to have a time for every thing and every thing in its time

Mr Goodrich, of Bangor, said, a teacher, to secure the attention of his pupils must possess three qualifications First, a thorough acquaintance with the studies he proposes to teach—Second a happy facility of communicating the same Third a good knowledge of human nature Mr Smith Freeman, of Orrington, said that the great secret of interesting scholars, is to bring every thing to the complete comprehension of their minds

Recess 10 minutes

The remainder of the session had been assigned to Mr Littlefield, for an exercise in geography, but it was late, he occupied the time in mental arithmetic First, by giving a thrilling and vivid description of the method of teaching, in which he fully manifested he same energy as has ever been justly awarded to him by those who have witnessed the examinations of his school He then gave out questions showing the peculiarity of his mode

Adjourned

Evening met at Hammond St Vestry

Lecture by Dr McRuer, of Bangor, upon the physical properties of bodies, in which he gave a familiar illustration of the laws of gravity, cohesion and affinity

After this we are an hour was spent in the discussion of questions that had previously been laid upon the table for the further consideration of the Institute Adj

EIGHTH DAY

Tuesday Nov 23

FORENOON

Met at Hammond-St Vestry

Reading on the Lord's Prayer by the Principal, Mr Worcester

English Grammar and analysis during the first hour, by Mr Thurston

Recess 10 minutes

Mr Thurston exercised the Institute upon the elementary sounds, thus exercise secures as it deserves, good attention

Mr Worcester then gave explanations and illustrations upon the Square and Cube Roots

Recess 10 minutes

The subject of extracting the roots was again resumed and explained by different members of the Institute

By invitation of the Mechanics' Association the Institute then adjourned to visit the Mechanic Hall

A Correction.

To the Editor of the Whig and Courier

I perceive, by a notice of my remarks before the Institute, that I am made to speak *equivocally* upon the questions of *whispering*, and of *corporal* punishment Here let me say, that any expression of views upon these points, different from that of positive *disapprobation* of the *forms*,—save at seasons of recess or relaxation, and of decided *approbation* of the *latter* in extreme cases, does me and is injustice I make this explanation, partly because Mr Mann is reported as coinciding heartily in my views, as there expressed Whispering in school, becomes the *bane* of order and industry, and the entering-wedge to much of and all evil Corporal punishment, though greatly abused, I have no doubt in its excess, is, I apprehend, necessary and salutary in certain cases

Yours, respectfully,

W WARREN

The Teachers Institute which has been in session here for ten days past, will close this afternoon at three o'clock Our citizens generally should give the Institute their encouraging presence during the afternoon session of today

☞ Col Bugbee has received the December number of Graham's Magazine at his periodical depot and Bookstore

It is beautifully embellished and as the closing number of the year it carries out the volume in fine style and is well calculated to whet the appetite for the new volume commencing in January

☞ The celebrated Ethiopian Vocalists will give a concert at the City Hall this evening and also to morrow afternoon and evening They are laughter provoking and side shaking people

Our Mexican Policy.

The Government vacillates, it is clear in the matter of its Mexican Policy, and has no fixed course marked out Mr Walker, it is understood, is for "conquest, and annexation" of all Mexico, "going the whole hog," as it is called Mr Buchanan, a sort of soldier of fortune, who, from his Federal past history, must be more of a present Democrat than if he had been Democrat born, is also understood to be in favor of liberally *slicing* Mexico Indeed, ultra Democracy runs just now, into carving up Mexico, and how long a man can continue a good Democrat, who is not a liberal *carver*, remains to be seen Meanwhile, Mr Polk has ups and downs judging by his beautiful organ, the Union Sometimes he is for *prosecuting* the war with vigor, and then he is "willing to make a liberal peace," and then he "won't negotiate at all,—but with arms in hand," and "quarter on the enemy" The truth is, the administration of the Government has no fixed policy,—and what it is in pursuit of, it is nearly as much in doubt about as the opposition itself

It never seems clearly to enter into the heads of Mr Polk and his Cabinet that it takes two to make a bargain in Mexico now, and that the Mexicans have about as much, nay, a little more, to say in that bargain than we ourselves have If thrashing, killing, capturing of cities and fortresses could have made anything of these Mexicans, we have not been failing in our duties—to better their condition, or to impress them with a due regard for our cannon and ball But the more they have been cannonaded only the more obstinate have they become and the more brilliant the victory, the far off seems to be the peace They do not appreciate it is evident, the force of that elegant logic that speaks in grape and canister Mr Polk, then no wonder, is puzzled what to do with such insensate or irrational logicians, and hesitates, whether it is worth the while to "annex" them, and make voters in our Union even before they can understand the blessings of Liberty and Equality, borne on by Bragg batteries or by Harney dragoons

For as Mrs Glass a receipt, "catch your hare and then cook it" yet understood by Mr Polk and his associates *Mexico is not caught yet* It is very true that we are in "the halls of the Montezumas," sleeping on our arms and in momentary peril of assassination—but Mexico is as far as ever from being "conquered" judging by the tone of the Mexican Press the Mexican official documents, and the Mexican *guerillas*, that swarm every highway where our soldiers are The Government says it has or is about to have an army of 30,000 men in Mexico—but Mexico appears no more convinced by their presence than when General Taylor first startled from the Nueces To conquer a people or to obliterate a nation of 12,000,000, is no stupendous undertaking, that no army of 30 000 men can do it or can be expected to do it—and hence we are compelled to take the alternative that Mr Polk has no fixed policy in Mexico or else is utterly ignorant of the nature of the job of subjugation that he seems to have undertaken

Meanwhile, during this vacillation on the part of the administration, the war will undoubtedly goon, as it has gone on with forces so unequal to the task imposed upon them that even great victories become little better than defeats—and thus go on, too as long as money can be raised from the capitalists of the country to take loans, and buy Treasury Notes The moment taxation, however, is imposed, the attempt to conquer Mexico will stop

For the Whig and Courier

To Mrs. H..., on the Death of her Child.

'Tis hard to part with those we've loved,
And mingled with for years, round whom
A chain of love is cast which binds them
To our hearts with deep and fond affection
And thou hast stood beside the couch of Death,
And in its sighing bent o'er that form
So long the object of thy fondest care,
Now wrapt in the stern monarch's cold embrace.
The mandate had gone forth that thou
Or clasp those endrils from thy heart,
And yield the treasure back to Him who gave.

And thou hast laid her down to rest—
Not on her cradle bed as thou wast wont to do
To wake again, and glad thee with her smile—
But on the Mount of Hope fit name
For that last resting place where
Those we loved and lost must slumber,
'Till the voice of God shall burst their tomb
And bid the dead awake

Look up, thou stricken mother, far beyond
This fleeting world of grief and tears
See how before thy Father's throne
Those white robed seraphs bow
Does not thy loved one's voice blend
In that chorus song of praise which
That bright angel band shall sing forever
Round the throne of Him, who said
"Suffer thy child to come to me,
For of such my kingdom is"

Philadelphia, Nov 19, 1847.

Passengers who left New Orleans on the 12th state that when they left the loss of the steamer Fashion and Beaufort District, both bound to Vera Cruz, were currently reported A letter to a Georgia paper, from Vera Cruz, dated the 3d, mentions the probable loss of these steamers, with Capts Hamilton and Pitard's companies of mounted men on board

Later from Mexico.

Dates from Vera Cruz to the 7th, have been received at New Orleans The National contradicts previous accounts of difficulties at Jalisco

Gen Lane had returned to Puebla, from an expedition to Atlexco, and had invited the dispersed habitants of Puebla to return He had given the governor permission the resume his functions All was quiet at Puebla.

The Mexicans seem effectually subdued

WASHINGTON, Nov 19th—*Peace Commissioners* In addition to what I yesterday stated in regard to the prospects of a peace, I may now add that it is deemed probable that the Government at Queretaro will send to the United States Commissioners to treat for peace

These Commissioners will come to this city, with Mr Trist, who has been recalled, but only remains for the purpose of executing some later orders in relation to the proposed renewal of negotiations

I do not state the above as ascertained facts, but as the belief of some persons who are likely to know what is going on

The administration certainly expects a treaty, and very soon Perhaps the treaty will be made here, and its ratification required here, before it shall be sent to the Mexican Congress for ratification —[Cor Jour of Commerce

COLDS, COUGHS, CONSUMPTION, &c—It should be remembered that a cough is always an evidence that some impurity is lodged in the lungs, which, if not speedily removed, will so irritate those delicate organs as to produce inflammation of the lungs, a disease which we all know is the high road to consumption

Wright's Indian Vegetable Pills are a safe, easy, and certain cure for colds and coughs, because they carry off by the stomach and bowels those morbid humors which if deposited upon the lungs, are the cause of the above dangerous complaints A single twenty five cent box of said Indian Vegetable Pills is generally sufficient to make a perfect cure of the most obstinate cold and at the same time the digestion is improved, and the blood so completely purified that new life and vigor are given to the whole frame

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

Boston Sept 10, 1847

Dear Sir—I take pleasure in communicating through you to all whom it may concern and the public generally the wonderful effect your truly wonderful medicine has had upon me I have enjoyed perfect health for four or five years Physicians told me my liver was diseased, and that I might some day die with consumption Last September, 1846, I took a slight cold which produced a hacking cough, this continued until February 1846, when I added another cold, my cough increased, I soon lost my appetite, and my strength failed For six weeks I could not lie upon one side, I sweat very much nights—raised consumptive blood during the winter, and could not speak a loud word for two weeks When all these had symptoms I had a very severe pain in my side and between my shoulders, general debility followed I was confined to my room about eight weeks I had buried a sister and brother both died with consumption I expected to die myself my friends also despaired of my life At this time an uncle who had been benefitted himself, advised me to take

DR WISTAR'S BALSAM OF WILD CHERRY

I accordingly procured and took it, and felt some better obtained another, and a third, then I ceased to bleed and my cough was much better, but my disease was so deeply rooted, I was obliged to continue taking the Balsam until I had taken seven bottles I can honestly and truly say, I believe Dr Wistar's Balsam of Wild Cherry saved my life

THANKSGIVING is coming—then farewell to sorrow
And call at the Artist's quite early to-morrow,
And call after dinner, with looks very cheery,
With cheeks like the roses and eyes that see clearly
We'll copy your faces with true Daguerreotyping
And show you the Pictures from Mexico's fighting
Come lads and some lasses, some older, some younger,
For Barnham may not remain here much longer
With charming *Expression* and true to dame Nature,
A Picture for those who may study *Locator*
Re-un one of all through our happy New England,
Who may ne'er meet again, o'er the ocean or inland
Then exchange those dear faces—secure a memento
Of all you love dearer than any that I know—(except 6)

To copy Nature as Daguerre has taught,
Then come in time, before another sun;
And have your faces most *Expressly* done

Hot-Air Ventilating FURNACE.

New and Important method of Heating and Ventilating Dwellings, Churches, School Houses Hospitals, Stores, &c

Chilson's Patent. 1847.

THE subscriber, sole agent for the sale of this new and valuable improvement invites gentlemen who have studied the science of heating and ventilating, and all others in want of a superior Furnace, to examine this valuable arrangement, which is acknowledged by all that have examined it to be the most important invention known

The inventor, Gardner Chilson, Esq, of Boston, by many years' experience in inventing, manufacturing and putting into use his well known Furnace, which has been so extensively introduced and admired, has had an opportunity, by carefully observing the operation of Furnaces to detect objections and make many improvements And having seen the injurious effects of a dry, harsh burnt air, coming from red hot iron and the great waste of coal, by being melted to cinders in iron pots and the loss of heat for the want of a suitable radiating surface, has been induced to remedy these objections and at great expense and care has just completed five sizes of a Furnace which will supercede all other plans of heating buildings By this method the air to be heated never comes in contact with red hot iron but produces a beautiful soft, healthy air The fuel is burnt in soap stone or fire brick, (on a new plan, without melting the coal)

The construction of the fire pot is such as to prevent airbroad but shallow depth of coal, by means of which the air is exposed to a much improved and enlarged radiating surface By this together with a great improvement in returning the smoke in the furnace the heat is prevented from escaping into the smoke pipe, which makes fifty per cent saving in fuel He has also invented a new plan of setting the furnaces in brick which prevents the heat escaping through the walls into the cellar but is taken into the apartments to be heated, and a supply of pure air, fresh from out of doors, is admitted at the same time for ventilating the apartments

These Furnaces have been approved and recommended by many gentlemen who have studied the science of heating and ventilating including many medical gentlemen

Those in want of Furnaces, will consult both health and economy by purchasing this Furnace

Anatomy and Physiology, FOR COMMON SCHOOLS.

THE "First Book on Anatomy and Physiology," by Calvin Cutter, M.D., embraces, 1. A description of the Bones, Muscles, Teeth, Digestive organs, Lungs; Heart, Blood vessels, Brain, Nerves, Eye, Ear, &c. illustrated by 91 beautiful engravings. 2. It describes the uses of the several parts. 3. It contains ample suggestions for the preservation of health. 4. It gives full and plain directions for the treatment of accidental injuries, as the recovery of persons apparently drowned, the stopping of bleeding vessels, the treatment of burns, wounds, &c. This makes it a valuable work for families as well as schools. It is used in the *State Normal* and Common Schools in more than 100 towns in Massachusetts. It is recommended to be generally introduced into the District Schools by the State and County superintendants of Schools in Vermont, by the superintendants of schools in thirty Counties of New York, &c.

The Boston Almanac, for 1848.

THE subscriber respectfully announces to the numerous patrons of this little work, that the number for the ensuing year will be forthcoming at the usual time.

The Business Directory has been thoroughly revised and corrected, and there have been other improvements, which it is believed will render the Almanac for 1848 equally as attractive as any of its predecessors.

It is intended to give in this number a complete transcript of all the inscriptions at MOUNT AUBURN—thus giving to the country a record or directory of that interesting city of the dead.

Child-Birth Made Easy.

TO MOTHERS.

YOU who are expecting to undergo the serious and important duty of bearing offspring, reflect upon the trials, troubles and dangerous risks that are before you; *and then learn*, that by the gift of Providence and the light of Science, a sure remedy for these consequences is known; by the use of which thousands are now performing the duties of Mothers with ease and safety, *and with a perfect freedom from all pain or subsequent disease.*

This remedy was discovered by the celebrated Dr. Bordeloque, of Paris, and has been in use in France for the last ten years with the greatest success—being approved by the Royal Academy of Science in Paris. Dr. A. C. Mortimer is the sole agent for the U. S., and he sends this medicine by Mail, to any part of the Country, and the Genuine can be obtained of no one but him.

Price Two Dollars a package, containing full directions.

THE GRAEFENBERG PILLS.

THERE are the most [illegible] reasons why that class of Medicines denominated "PATENT," should be made the means of scaleable and enduring blessings to the human family. Suppose, for example, that a great order of talent, long and sagacious observation, and great medical learning, and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the exertions of other artisans and skill in other things? There is no reason; and it is but the simplest dictate of the [illegible] common sense to say that a Pill thus produced will be as perfect an article as can be made by man. Twenty-five years devotion to any one subject will give a man or ability the mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science.

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed the fulness of time. Dr. Townsend's SARSAPARILLA,
The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines, while it eradicates diseases it invigorates the body. It is one of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 6000 of these were considered incurable. More than
3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
400 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption;
and thousands of cases of diseases of the blood, viz:—Ulcers, erysipelas, saltrheum, pimples in the face, &c., &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J. informs us that he can refer to more than 150 cures in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,
as it removed the cause of disease, and prepared them for the summer season.

UNITED STATES OFFICER.
Capt. G. W. McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.
Rahway, Jan. 2, 1847.
A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G. W. McLEAN.

SCROFULA CURED.
This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the Blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.
Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores, have taken only four bottles; it took them away, for which I feel myself under deep obligation. Yours respectfully,
ISAAC W. CRAIN, 96 Wooster-st.
New York, March 1, 1847.

Brooklyn, Jan 3, 1845.
TO MOTHERS AND MARRIED LADIES.
This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicines taken for female weakness and disease.

GREAT FEMALE MEDICINE.
Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. M. D. MOORE.
Albany, Aug. 17, 1847. Cor. Grand and Lydius sts.

OPINIONS OF PHYSICIANS.
Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.
This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. H. P. PULING, M.D.,
J. WILSON, M.D., R. B. BRIGGS, M.D.,
P. E. ELMENDORF, M. D.
Albany, April 1, 1845.

The following is from one of the most respectable physicians on Longisland:—
Greenport, July 10, 1846.
Dr. Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed, in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice, &c., it far excels any thing of the kind ever before offered to the public. You will please send me two dozen, &c. &c. Respectfully yours,
S. C. PRESTON, M.D.

RHEUMATISM.
This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and joints are dreadfully swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:
Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent [illegible] chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.
Hartford, March 12, 1845.

PILES! PILES!! PILES!!!
Dr. Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than in diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following:—
Dr. Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful. For the last six or eight years past, I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint, and have despaired of ever finding relief, except in death. I have the pleasure to inform you "there is yet a balm in Gilead." I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint. I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands.
Yours truly, JOHN HALL, 4 Fulton st.
July 5, 1846.

CAUTION!
Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr. Townsend's, &c., hoping thereby to deceive the public. Some [illegible] unprincipled men publish counterfeit certificates [illegible] persons to allow [illegible] put "Esquire" to give them [illegible] should be on their guard, and look out for counterfeits.

JULES HAUEL'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!
TO THE PUBLIC.
Wonderful! That's Right—A proper Principle adopted.

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded.—Remember, there is no quackery,—no humbug,—here. A trial will cost you nothing,—so if any one is humbugged, it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff, and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful, it removes all harshness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not smart or irritate the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect. Its composition is infallible, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c., giving a masculine turn to the features, and who testify of its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair instantaneously, without the least inconvenience.

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated "Vegetable Liquid Hair Dye."

For changing red or grey hair, whiskers, eye-brows, &c. to a brown, black, or chestnut color. The slightest evil consequence need not be feared from its use—it is altogether harmless. This composition is the only one sanctioned by the science of chemistry, to dye, in an indelible manner, the various gradations of colors, without danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public.

☞ Beware of Counterfeits! Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article. Sixth—

MY UNRIVALLED ROSE TOOTH PASTE,

Is universally sought after, for the pearly whiteness it gives to the Teeth, without the slightest injury.—Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies.

This powder is unequalled for the nursery, for restoring, beautifying and preserving the complexion, rendering the skin delicately white smooth and soft, preventing cutaneous eruptions, chapping, and obviating too copious perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair-Dye* is not the best,—the very best yet known in this country or in Europe.—This valuable discovery will enable a person to dye instantaneously the hair or whiskers, in a few minutes, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the health of the hair, and retain all its softness and brilliancy.

From a celebrated Chemist of the City of Philadelphia.
"DEAR SIR:—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair-Restorative*. I have been surprised by its wonderful and beneficial results, and have no hesitation in saying, that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair-Dye, Rose Tooth Paste, Depilatory Powder*, and *Shaving Cream*, I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c
JOHN FARR, Chemist,
President of the Manufacturers' and Mechanics' Bank, Philadelphia.

MR. JULES HAUEL:
Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of an article depends on the favor and satisfaction it has received from those who have used it.—With respect to my *Shaving Cream*, it is always used with satisfaction, and has everywhere met with universal approbation.

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No. 120 CHESTNUT Street, receive, without charge, a small box for trial, as I am determined to let all try it and judge for themselves.

Prepared and sold, *Wholesale and Retail*, by
JULES HAUEL, Practical Chemist and Perfumer.

An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."

"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly valuable preparations, well calculated for the toilet."

READ THE CERTIFICATE!
"The Franklin Institute, of the State of Pennsylvania, for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his celebrated 'EAU LUSTRAL HAIR RESTORATIVE,' and other perfumery, deposited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.
"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized these favorable anticipations;—they are, what they profess to be, scientifically prepared and compounded. I have at all times since my experience, been strong and [illegible] of the great merit of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap*, and, in fact, all the popular preparations of Mr Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.
CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq., Attorney at Law, Consul General of [illegible] States, Vice Consul of Austria, Sardinia, Portugal, and Tuscany.
To Mr. JULES HAUEL.
Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the uses and purposes they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition,—it does not smart or irritate the skin; while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in this way invaluable.

"I have been some of my friends who have used your Vegetable Liquid Hair-Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none [illegible] ual. Yours, &c. [illegible] DESMOND.

DEAFNESS CAN BE CURED!
COOPER'S ETHEREAL OIL,—A [illegible] lasting remedy for DEAFNESS, [illegible] pains and discharge of matter from the ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

☞ A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder; Inflammatory and Mercurial Rheumatism; Impurity of Blood; Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at 8 1-3 cts per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger.—All external applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.
Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any portion or part or organ. In inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder; in inflammatory and mercurial Rheumatism, it is the *Best* Medicine ever discovered.

IMPURITIES OF THE BLOOD.
For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes; for all diseases of the Skin, and Scrofulous Affections; in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR. UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES.
Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with often great inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies and the most useful [illegible] that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution in the offspring.

CURE FOR LIFE GUARANTIED.
The Electuary contains NO MINERAL Medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

GREAT SUCCESS OF UPHAM'S
PILE ELECTUARY.
Portland, Me., March 11, 1847.
Dr. UPHAM—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My case also became offensive and in fact I was a misery to myself. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve me, which I still persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well; still I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me.
You can use this letter as you please.
Yours respectfully, SAMUEL CHARLTON.

DR. WARREN'S
SARSAPARILLA, TOMATO AND WILD CHERRY
PHYSICAL BITTERS,
At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a [illegible] and effectual remedy for *Scrofulous, [illegible] Cutaneous Diseases*; Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and running Sores, Swellings of the Limbs, Pain in the Bones, Tumors in the throat, Rheumatic affections, [illegible] Erysipelas, bad Humors, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Catarrh, languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the [illegible] of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is *speedy and permanent*.

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and checking all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

Prepared and sold by DAVID F. BRADLEE, at the *Magazin de Sante*, (Magazine of Health,) 130 Washington street, Boston, General Agency for Burland's [illegible] Balsam of Life, Upham's Pile Electuary, Bradlee's Purifying and Preventing Pills, Dr. Jackson's Infallible Eradicator, Bradlee's New England Hair Restorative, Bradlee's Superior Cologne Water, &c.

KELLEY & CO.'S
SARSAPARILLA
FOR SCROFULA, DYSPEPSIA, JAUNDICE, LIVER COMPLAI[illegible] COSTIVENESS, HUMORS, RHEUMATIS[illegible]
THIS valuable medicine is used FOUR times [illegible] much now as ever. This is because that [illegible] only PHYSICIANS, but the public know it by [illegible] perience, to be FAR the BEST, and therefo[illegible] give it their united preference to any other prep[illegible] ration, or form of Sarsaparilla.
Kelley & Co.'s Sarsaparill[illegible]
is so strong, and so certain to do good, but mo[illegible] than all, is known to have performed so many [illegible] tonishing cures of DYSPEPSIA—of SCROFUL[illegible] and of every form of RUN-DOWN CONSTIT[illegible] TION, that it has in spite of every opposition whi[illegible] self interest or malice could devise, won its way [illegible] the favor of PHYSICIANS and the public in S[illegible] STATES of the UNION in a very short time.
Try it! Try it! Let not the frequent dis[illegible] pointments which you meet with in the use of oth[illegible] articles, deprive you of the ALL-HEALIN[illegible] and HEALTH-RESTORING power of t[illegible] MEDICINE!
